

Objective: Apply the C.R.A.P. (Contrast, Repetition, Alignment, Proximity) design principles to a personal presentation.

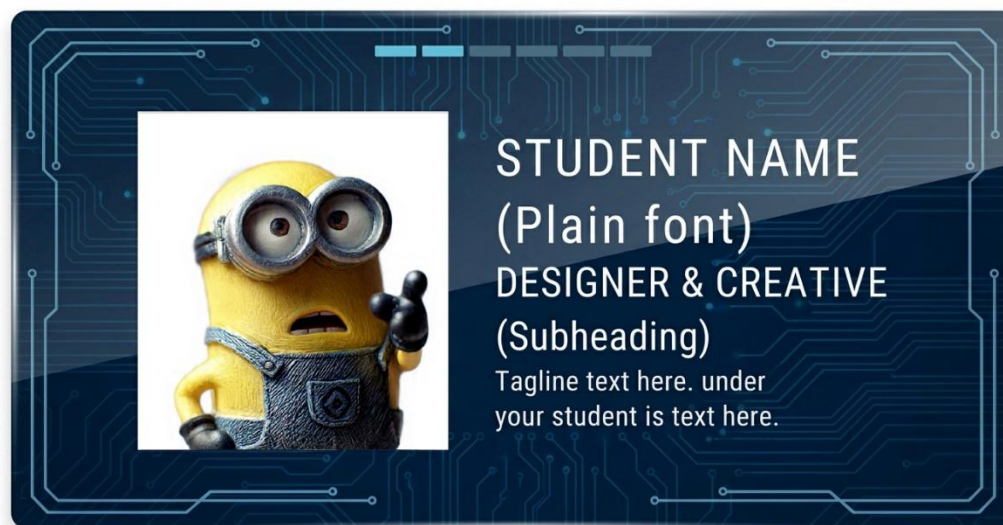

Instructions:

1. Log into your **Canva** account and create a new presentation deck (16:9 ratio).
2. Design a **3-slide presentation** introducing yourself:
 - *Slide 1:* Title & Tagline (Your name, career goal, and a professional photo or avatar).
 - *Slide 2:* Core Skills & Interests (Use icons and structured lists).
 - *Slide 3:* Future Aspirations (Where do you see yourself in 5 years?).
3. **Design Constraint:** You must manually choose a cohesive color palette (maximum 3 colors) and ensure your alignment is perfectly sharp using Canva's grid lines. Avoid clutter!
4. Export your final design as a **PDF**.
